

Welcome to Siebert Engineers, Inc.

Siebert Engineers, Inc. is a licensed engineering design firm with offices in Lisle, Illinois and Kansas City, Missouri. Siebert provides a wide range of professional consultation and engineering services, including Process Engineering, Mechanical and Electrical Engineering, Civil and Structural Engineering, and Forensic Engineering.

Siebert was incorporated in 1963, and has evolved from being a specialized expert in Material Handling into a multi-disciplined engineering and consulting firm providing services from initial concept, feasibility studies, and budget development through detailed design, project management, construction administration, and inspection start-up.

Siebert holds the following accreditations:

- Licensed Engineering Design Firm
- Licensed Structural Engineering Firm
- Licensed Land Surveying Firm

Many of our clients are Fortune 500 companies in the Land Development, Food, Confectionary, Chemicals, Personal Products, Plastics, and other industries. Civil and Structural engineering clients have included architectural firms, private and public land developers, construction companies, pipeline companies, municipalities, and private individuals.

SEI has expertise in the following disciplines:

- Process Engineering
- Packaging Engineering
- Material Handling Engineering
- Structural Engineering
- Civil Engineering
- Land Surveying
- Mechanical / HVAC / Piping Engineering
- Electrical / Controls Engineering
- Project Administration
- Forensic Engineering

Company Services Overview

Siebert Engineers, Inc. employs engineers in all disciplines. Civil, Chemical, Electrical, Mechanical, Architectural, and Structural disciplines work as a team to design new facilities or modifications/additions to existing facilities; perform specific scope work as an individual discipline and provide forensic investigating. Siebert has worked on many projects for a wide variety of clients in diverse industries. Examples of project types and clients for whom Siebert has worked are shown below. (Siebert can provide a complete client list to prospective new clients upon request.)

Housing Development

Centex
Inland Real Estate

Retail & Commercial

Rock Bottom Brewery
Texas Roadhouse

Food

ConAgra (Prepared Foods)
Kraft

Confectionary

Nestle
M & M Mars

Snack Foods

Keebler (Potato Chips)
Cracker Jack

Bakery

Nabisco (Cookies)
Sara Lee (Pies)

Personal Products

Helene Curtis (Shampoo)
Lever Brothers (Toothpaste)

Chemicals

Toyal America (Aluminum Powder)
MacTac (Adhesives)

	Paint	Glidden Durkee Valspar		Bagging & Packaging	Brock Candy (Hard Candy) American Licorice
	Bulk Materials	Interlake Steel (Coal) Morton (Salt)		Material Handling	A.O. Smith (Water Heaters) General Mills
	Minerals Processing	Martin Mariette (Sand) Cargil (Salt)		Warehousing	Globe Glass (Auto) Ford Motor Co. (Parts)
	Solid Waste Handling	Time Inc. (Paper) Caterpillar (Pallets)		Engineering Investigations	Lever Brothers (Roof & Wall) Life Savers

These projects require varying levels of integrated engineering services, are an example of the diverse range of projects that Siebert has completed, and show the extent of Siebert's engineering capabilities.

Refer to other web pages for project descriptions for these industry groupings:

- Land Development and Surveying
- Food, Confectionary, Snack Foods, Dairy, and Bakery
- Personal Products, Chemicals, and Paint
- Bagging, Packaging and Material Handling
- Bulk Materials, Minerals Processing, and Warehousing
- Forensics and Investigations
