

## Structural Engineering Services

Siebert Engineers, Inc. is a licensed Structural Engineering firm. Our engineers are experienced in the design of a wide variety of buildings and structures:

- Retail Buildings
- Office / Commercial Buildings
- Industrial Buildings and Structures
- Residential Buildings
- Educational Buildings
- Transportation Buildings and Structures
- Underground Structures
- Foundations and Retaining Walls
- Steel and Concrete Bridges

Siebert Engineers, Inc. (SEI) provides design services to architectural firms, developers and contractors, as well as industrial companies. Additionally, Siebert's structural engineers support the company's Investigative branch, providing expert services to analyze structural failures and assess damage.

Siebert is equipped with state-of-the-art structural analysis and design software.

The full range of structural design services are offered, including detailed design development, construction documentation, and shop drawing review.
